Newsletter no. 4. October 2024

Dear readers,

In this issue of the newsletter we will bring you the latest news on the We Teach DATA project. Over the past months, we have deepened our collaboration in data science and STEM education trends.

Learn more about our latest project meeting, upcoming opportunities, and products you can take advantage of.

We wish you pleasant reading!

### Project meeting of the We Teach DATA team

In early July 2024, a coordination meeting of the partners was held in Bratislava, Slovakia. Our colleagues from EXPOL Pedagogika (Slovakia) hosted the meeting. During our short time in the Slovak capital, our partners from Slovakia, Greece, Portugal and Bulgaria shared their impressions of the project developments.

Among the highlights of the meeting were the evaluation and testing of some of the lessons developed in the School Box work package in a real school environment, as well as the upcoming dissemination activities and the preparation for the next work packages.

### STEM subject activities and tasks pique 5th-7th graders' curiosity about data science

With the start of the school year, we want to provide you with 36 ready-made lessons to support the teaching of STEM subjects at the lower secondary level. The lessons are open-access and have been developed as part of the We Teach DATA project.

The lessons aim to improve students' key competencies for understanding and working with data and enhance their digital skills, information and media literacy, communication and collaboration, digital content creation, problem-solving.

### Teaching Data Masterclass for Secondary Teachers

In recent months we have worked hard to develop a Masterclass for teachers, to support and facilitate our colleagues teaching STEM subjects at the junior secondary level.

The primary purpose of the Teaching Data Masterclass is to give teachers the knowledge, skills and resources needed to effectively teach data science in schools, providing a meaningful and enriching learning experience for students.

### Presentation of the We Teach DATA project at the Professional League of Directors

In September 2024, RAABE Bulgaria conducted a series of practical webinars to support leadership teams in education. "Professional League of Principals " was a highly successful project of ours, through which we reached 1200 representatives of educational institutions across the country.

As part of the initiative we also had the opportunity to present the We Teach DATA project, funded by Erasmus+, Key Activity 2, of which RAABE Bulgaria is the coordinator.
